Very Satisfied

It makes it easy to vote , and it will provide an increasing participation in the voting procedure.

Satisfied

Many apparently minor wordsmithing changes proposed by hamberg fleet. Not at all clear what is happening and the unexpected consequences. Needed to be presented as a package to make sense. Voted against as a result

Satisfied

It could be more precise if we had more pictures

Satisfied

Several of the Resolutions submitted by the Hamburger Fleet could benefit from clearer language.

Satisfied

Thank you!

Modern Times Paper free is Good
Greetings Uli

Satisfied

Unfortunately, the processing was very slow and the first time I loose all my entries, had to relogin and reenter all votes.

Neutral

Too many proposals by the hamburger fleet

Neutral

Some of the recommended changes were not written very well...

Neutral

Should include original rule and proposed rule on the ballot sheet.

If the proposed rule is new, indicate it as well.

Dissatisfied

I had to try three (3) times (filling out the entire ballot each time) before I could get the program to go to the page with the "submit" button.

Dissatisfied

Very very slow and balky. It took at least 4 times longer to complete ballot that it should have. And I have fast internet access.

Dissatisfied

I had to vote 4 times before it works

Very Dissatisfied

Trying to vote anywhere near the time of issuing of the ballots totally overwhelms this inadequate website. I had to come back three times before I could get to the "submit" screen, and then it was slow to appear.

Very Dissatisfied

too big file for my connection

Very Dissatisfied

takes too long to load
